## About

Senior Full Stack Web Developer with over +9 years of experience delivering scalable and high-performance web applications. Adept in ReactJS, WordPress (custom themes and plugins development from scratch), Laravel, and Angular 8, with a focus on responsive design and user experience. Proficient in HTML5, CSS3, JavaScript, PHP, and MySQL. Skilled in RESTful APIs, microservices, Headless WordPress, and component-based architecture. Hands-on with CI/CD (GitLab), cloud platforms (AWS, Azure), and containerization using Docker and Kubernetes. Experienced in Agile methodologies, team mentorship, and performance optimization. Winner of Capgemini's 2021 Customer Delight Award, 2023 Ace of Capgemini Award, and 2019 Star Performer Award.

## Experience

Assistant Manager - Fullstack Web Developer  
Deloitte USI, Hyderabad IN  
08/2025 – Present

Senior Consultant & People Manager  
Capgemini, Pune IN  
09/2018 – 08/2025

- Lead enterprise-grade and consumer-facing web application development using React.js, WordPress (custom themes/plugins from scratch), Laravel, Node.js, SCSS, and Bootstrap.
- Collaborate with infrastructure teams to deploy deliverables, resolve code issues, and conduct thorough unit testing.
- Build and integrate RESTful APIs, Headless WordPress, and microservices for scalable, modern solutions.
- Implement CI/CD pipelines with GitLab, manage containerization using Docker and Kubernetes, and deploy on cloud platforms like AWS and Azure.
- Follow Agile methodologies with tools like Jira and Rancher Desktop to ensure efficient, on-time delivery.
- Provide L1 and L2 product support, mentor junior developers, and drive innovation through leadership and cross-functional collaboration.
